## St. Feriole Memorial Gardens Trees With A History

Every person has a story and every tree has a story. This project matches the person with a tree. Here in Prairie du Chien, many notable people have lived or stopped here on their journeys. We have matched selected people with a tree that will help tell their story.

**The Trail of Presidents:** Very few small towns can say they have had 22 presidents that lived or visited their communities. We have researched each United States President and have formed a list of the 22 presidents that have visited Prairie du Chien. The Oak tree is America's National Tree. Oak trees are being planted because individual oaks have played a part in historical events. In the annals of military history "Old Ironsides", the U.S. Constitution, took its nickname from the strength of its live oak hull, famous for repelling British cannonballs. President of Mexico, Vicente Fox was educated at Campion Boys School here. Come visit this one-of-a-kind park to find out more!

Those who make these donations receive a personalized plaque on the bench. For more information on how you can enhance the park with a lifetime gift, call Parks and Recreation Director, Mike Ulrich at 608-326-7207.

## Urban Forestry Program

The City of Prairie du Chien recognizes that trees provide important economic, social and environmental benefits that significantly improve the quality of urban life. In 2011 the city completed a public street and park tree inventory and prepared a management plan and tree inventory to provide a sincere commitment to Prairie du Chien's urban forestry program. This document reports the findings of the inventory and makes specific, prioritized recommendations for managing the urban forest resource based on inventory findings, current staffing, budgets and tree circumstances. A companion document, the 'City of Prairie du Chien Emerald Ash Borer Readiness Plan' was also prepared for the purpose of ash and emerald ash borer (EAB) management.
